ABOUT ME

I am extremely passionate about the fields of Frontend development, UI/UX design & development. Through a combination of academic learning and work experience, I have honed my skills and expertise in these areas, and I am continually seeking opportunities to further develop my knowledge.

Furthermore, I have completed numerous freelance projects on UI/UX design & development, which have exposed me to diverse industries and business types, providing me with invaluable experience and insights into real-world challenges.

EXPERIENCE

ENGINEER

September 2022
- August 2023

Tata Elxsi | Pune, Maharashtra

- Created and implemented electrical architecture for the vehicles using vector PREEvision tool
- Supported on the customization of the PREEvision application using Java
- Got a strong knowledge in the system engineering and model based developing

FRONTEND DEVELOPER & UI/UX DESIGNER

Jan 2022 -
Aug 2022

Klashra Tours & Travels | Dubai, Remote

- As a frontend developer and UI/UX designer for Klashra my role was to create an engaging userfriendly online platform for travelers worldwide, for the destinations located at Dubai
- Design Concepts with Figma: Utilized Figma to create wireframes, mock-ups, and interactive prototypes to visually communicate design concepts effectively. Leveraged the "smart animate" feature in Figma to craft dynamic and engaging prototypes.
- User-Centered Design: Applied user-centered design principles to ensure the platform's interfaces were intuitive and visually appealing. Focused on creating a seamless user experience to enhance engagement.
- Frontend Development: Leveraged a tech stack that included React.js, HTML, Tailwind CSS, and JavaScript to implement responsive and interactive user interfaces. Ensured that the platform worked seamlessly across various devices and screen sizes.
- Utilized React hooks to manage state and functional components effectively. Implemented custom card components to showcase travel information and destinations.
- Payment Integration with Stripe: Integrated the Stripe payment gateway to facilitate secure and efficient payment processing within the platform. Ensured a smooth payment experience for users.
- Deployed site : <https://earnest-madeleine-e4b5c0.netlify.app/>
- UI/UX prototype : <https://www.figma.com/file/uAZSZjAf5JOFK8ucaT8bzu/klashra?type=design&node-id=58%3A2&mode=design&t=dDP9OG4rB0FaVD3F-1>

FRONTEND DEVELOPER & UI/UX DESIGNER

June 2021
- Nov 2021

QIB Logistics Inc | Freelance

- In my capacity as a Frontend Developer and UI/UX Designer at QIB Logistics, the task was to craft a landing page for the company. The objective was to align the design seamlessly with the brand book provided by the organization.
- Ensured strict adherence to the company's brand book guidelines to maintain a cohesive and consistent visual identity.
- Leveraged Figma to meticulously design the user interface (UI) for the landing page. The design process involved creating aesthetically pleasing and user-friendly elements that resonated with the brand's ethos.
- Employed a robust tech stack consisting of React.js, Bootstrap CSS, and TypeScript for the frontend development. This stack provided the foundation for a responsive, high-performance, and interactive landing page.
- Deployed site: <https://darling-empanada-84e43d.netlify.app/>
- UI prototype: <https://www.figma.com/proto/31amN5fsPovOG3Gmximryz/QIB?type=design&node-id=1-2&t=VTAO213Xccm2cH82-1&scaling=scale-down&page-id=0%3A1&starting-point-node-id=1%3A2&mode=design>

FRONTEND DEVELOPER & UI/UX DESIGN INTERN

July 2019 -
February 2020

Infospica | Remote

- As an UI/UX designer for CETROOTS, a non profit organization focused on alumni connections, my role was to help create an engaging and user-friendly platform that would allow alumni to connect and assist each other in their job searches.
- Working on Figma, I utilized my design and flow creation skills to create intuitive interfaces that would enhance the user experience of our platform.
- Working on ReactJs, I learned to employ modular and reusable code practices to enhance maintainability of the website.
- Similar to LinkedIn, this platform provided a space for alumni to connect, share job postings, and provide feedback and support to one another. Through my UI/UX design work, I helped to ensure that the platform was visually appealing, easy to navigate, and intuitive to use, ultimately enhancing the user experience and driving engagement with the platform.

PROJECTS

Automatic Speech Recognition

https://drive.google.com/file/d/1U2KpaE2pjwEg_ZEjI3knsDuBUccfb_68/view?usp=sharing

- Design and train an Automatic Speech Recognition model as part building and Humanoid for ISRO Gaganyaan Mission
- The toolkit used was kaldil which require good knowledge on linux and python
- Worked on data cleaning, data preparation and creating automated Lexicon generator

State of Art

<https://whimsical-unicorn-e875b7.netlify.app/>

- A website for artists of our college to showcase and sell their creations.
- Worked on the frontend using HTML and CSS

EDUCATION

BTech in Computer Science and Engineering

2018-2022

College of Engineering Trivandrum | Trivandrum

- Graduated with CGPA of 8.23

Higher Secondary(XII)

2015-2017

MSPHSS Malappuram | Malappuram

- 95%

EXTRA CURRICULAR

Event convener of the college technical fest, Drishti.
(<https://www.drishti.cet.ac.in/team>)

College Union Vice Chairperson
